Kanpur, Uttar Pradesh – 208002, India

OBJECTIVE

B.Tech (Computer Science – AI Specialization) graduate with hands-on experience in full-stack development, AI/ML-powered applications, and data analytics. Skilled in Python, JavaScript/TypeScript, SQL, and Power BI, with project experience integrating Gemini API, OpenAI API, computer vision, and data-driven dashboards for business decision-making. Seeking a Software Engineering, AI/ML, or Data Analyst role to build practical, scalable, and data-driven solutions.

EDUCATION

- Pranveer Singh Institute of Technology** Dec 2022 – Jul 2026
Bachelor of Technology (B.Tech) – Computer Science & Engineering (AI Specialization)
◦ Percentage: 71%
Kanpur, India
- Bright Angels Education Center** 2022
Intermediate (UP Board)
◦ Percentage: 68%
Kanpur, India
- Children's Care Higher Secondary School** 2020
Secondary Education (UP Board)
◦ Percentage: 74%
Kanpur, India

SKILLS

- Programming Languages:** Java, Python, JavaScript
- Web Development:** React, Next.js, Node.js, Express.js, Tailwind CSS
- AI / ML:** Google Gemini API, OpenAI API, Computer Vision (OpenCV, YOLOv5), TensorFlow Lite
- Data Analytics & BI:** SQL, Power BI, DAX, Pandas, Excel, Exploratory Data Analysis
- Databases:** MongoDB Atlas, PostgreSQL
- Tools & APIs:** REST APIs, JWT, Socket.IO, Razorpay, Clouinary, Google Maps API, Clerk
- Embedded Systems:** Raspberry Pi, GPS Navigation, Sensor Integration

PROJECTS

- SkyGuard SE — AI-Powered Autonomous Surveillance Drone**
Python, Raspberry Pi 4, OpenCV, YOLOv5, TensorFlow Lite, GPS (NEO-6M), RTSP/MJPEG
 - **Problem:** Security, defense, agriculture, and disaster-response teams need an affordable autonomous drone for real-time surveillance and environmental monitoring without manual piloting.
 - **Solution:** Built an **AI-powered autonomous drone** on a Raspberry Pi 4 with real-time object detection (OpenCV + YOLOv5), GPS-based autonomous navigation, and return-to-home with obstacle avoidance.
 - **Key Features:** Onboard air quality & temperature monitoring, real-time RTSP/MJPEG video streaming to ground station, voice-assistant command integration, and AI-based anomaly detection in the surveillance feed.
- Intellio.AI — Full-Stack AI SaaS Platform**
React, Node.js, Express.js, PostgreSQL, NeonDB, OpenAI API, Clerk, Tailwind CSS
 - **Problem:** Individuals and teams need a unified AI tool for content generation, image processing, and document analysis without switching between multiple services.
 - **Solution:** Developed a multi-feature **AI SaaS platform** powered by OpenAI API with article generation, image analysis, and AI-driven resume review under one subscription.
 - **Key Features:** Clerk-based secure auth, serverless PostgreSQL (NeonDB), subscription-gated feature access, and scalable PERN-stack REST APIs with rate limiting.
- FMCG Supply Chain Performance & Delivery Optimization**
Python, Pandas, SQL, Power BI, DAX, Excel
 - **Problem:** Analyzed FMCG order and delivery data to identify delayed, incomplete, and underperforming customer deliveries affecting overall supply-chain performance.
 - **Solution:** Cleaned and performed exploratory analysis using Python/Pandas and used SQL to evaluate customer performance, delivery delays, monthly trends, and fulfillment gaps.
 - **Key Features:** Built an interactive **Power BI dashboard** with On-Time Delivery (OT%), In-Full (IF%), OTIF%, Fill Rate, customer performance, and delivery trend analysis.
 - **Business Impact:** Identified high-risk customers and delivery performance gaps, and provided data-driven recommendations to improve order fulfillment and overall service-level performance.

ACHIEVEMENTS

- AgentBlazer Champion** – Recognized by **Salesforce** for excellence in Trailhead AI challenges. 2024
- TechExpo 2024** – Received **Impactful Grade** for autonomous drone project **SkyGuard SE**. 2024
- Winner** – RC Plane Making Competition, College Tech Fest. 2023
- Winner** – Hydraulic Bridge Making Competition, College Tech Fest. 2023

CERTIFICATIONS

- AI & ML for Geodata Analysis — Indian Space Research Organization (ISRO)** 2024
- Google IT Automation with Python Professional Certificate — Google** 2024
- Meta Frontend Developer Certificate — Meta** 2024
- Meta Backend Developer Certificate — Meta** 2024
